

CONSTRUCTION UPDATE #5

Lord Jesus, help us build a beautiful church!

While we have only about a year and a half to go in our present worship space, I do not want to neglect the House of God or omit necessary touch-ups and repairs. Therefore we have been doing some spackling, painting and roof work to keep our building in good shape.

To brighten up the outside of the building with lights for our Christmas joy, we had the help of three wise Knights of Columbus: Jerry Weir, John Scianimanico, Ed Hogarty.

This is also an opportunity to give thanks to our part-time, hard-working maintenance man, Mr. Alejandrino Antonio. Alec is extremely cooperative and helpful to Mrs. Biasotti and me. He holds a full time job elsewhere, but comes faithfully every night to clean the classrooms, and every Sunday puts the church back into shining shape for our week's activities.

I also want to say thanks to you for your patience while we install a larger, more complete filter and purification system for the drinking water that comes from the fountains and sinks. Tests for a well showed some abnormal readings. As a safety measure I closed the water fountains and started the process to install a better system that will serve us in this building for many years to come. We expect to have this in place early in the new year.
